-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to methods of designing masks having sidelobe inhibitors across or at interference ring intersections (claims 1-18, processes) and a computer readable media having computer-executable instructions (claims 19-22, means therefore), classified in class 716, subclass 19.
- II. Claims 23-26, drawn to a mask (product), classified in class 430, subclass 5.

Inventions I and II are related as processes of making (along with means therefore) and product made. The inventions are distinct if either or both of the following can be shown: (1) that the processes (along with means therefore) as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the mask (product) as claimed in Group II can be made by another and materially different process than those claimed in Group I, such as laying out a mask with sidelobe inhibitors placed only at other locations besides those that are across or at interference ring intersections (as required in the processes along with means therefore of Group I).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 1756

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).

Oath/Declaration

The oath or declaration filed on 6/27/03 is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: the state of residence for the second inventor, Husayn Alvarez-Gomariz, is admitted to be incorrectly identified as "UT" instead of --ID-- in the Request For Corrected Filing Receipt (filed on 10/17/03). On page 2 of this request; Applicants assert that this incorrect address for the second inventor is not due to any error by Applicants and that no fee is due.

However, on page 3 of the original DECLARATION filed on 6/27/03 under the second inventor's signature dated 6/4/03, the incorrect state "UT" is listed for both the residence and post office addresses. Therefore, Applicants must now submit a corrected supplemental oath or declaration in full compliance with 37 CFR 1.67(a), along with the appropriate fee, in response to this Office action.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Ruggles whose telephone number is 571-272-1390. The examiner can normally be reached on Monday-Thursday and alternate Fridays.
